

# Usman Ibrahim

## CREATIVE DESIGNER

I am a professional creative designer with 2 years of experience project management, advertisement, and computer aided design. Proven ability to transform client ideas into beautiful, functional design solutions

## Experience

### Web Design

Designed and developed responsive websites using HTML, CSS, and JavaScript. Collaborated with the design team to implement pixel-perfect front-end designs. Utilized front-end frameworks such as React and Next Js for building interactive web applications. Worked with RESTful APIs to fetch and display data from back-end systems.

### Desktop Development

Developed cross-platform desktop applications using technologies such as VB.NET and WPF. Collaborated with the product team to gather requirements and create functional specifications
